AUGUST 2013

SEPTEMBER & OCTOBER 2013 ARE ANNUAL DENTAL HEALTH & SENIOR PET CARE MONTHS AT PALM CITY ANIMAL MEDICAL CENTER

Providing your pets with compassionate care.

Each year, the Palm City Animal Medical Center sets aside a special time in the early Fall to focus on two important pet-related issues: Dental Care for Pets and Senior Pet Care. Positive response and demand in past years have been great, so we will continue to dedicate both September and October this year to this special program for the benefit of your pets. Protecting their health and wellbeing is as important to us as it is to you.

Special Offers

During the months of September and October, we will be offering your pets teeth cleaning, polishing, and blood work for **15% off**. Our senior pets (ages 8 and up) will be offered the choice of two excellent Senior Care Packages with **15 to 20% off**. The Senior Diagnostic Exam is vital for the early detection – and intervention – of age-related diseases and organ system failure. We know that you

share our desire to see your pets live longer and happier lives and to enjoy an optimal quality of life.

We often fail to recognize how quickly our pets are aging; yet, they age the equivalent of 2 to 5 human years in just 6 months! Therefore, regular check-ups are especially important, as changes can occur rapidly, making prevention and early intervention the best choices for our animals.

We are offering two levels of senior diagnostics for your pets during September and October – both providing full body and organ analysis. The first package will include a comprehensive physical exam, a blood chemistry panel, a complete blood count analysis, thyroid screening, urinalysis, and fecal examination. The more extensive second package option will also include a full chest x-ray and EKG for a more in-depth evaluation of the heart and lungs.

Please call us soon to schedule your pet's dental care exam and/or senior care exam. 772-283-0920

Dental disease can lead to kidney and heart infections!
